Conservation Measure 23-05 (2000)^{1,2} Monthly fine-scale Biological Data Reporting System for trawl, longline and pot fisheries

Species	all except krill
Area	all
Season	all
Gear	all

The Commission hereby adopts the following conservation measure in accordance with Conservation Measure 31-01, where appropriate.

This conservation measure is invoked by the conservation measures to which it is attached.

- 1. Specification of 'target species' and 'by-catch species' referred to in this conservation measure shall be made in the conservation measure to which it is attached.
- 2. At the end of each month each Contracting Party shall obtain from each of its vessels representative samples of length composition measurements of the target species and by-catch species from the fishery (Form B2). It shall transmit those data in the specified form to the Executive Secretary not later than the end of the following month.
- 3. For the purpose of implementing this conservation measure:
 - (i) length measurements of fish should be of total length to the nearest centimetre below;
 - (ii) a representative sample of length composition should be taken from each single fine-scale grid rectangle (0.5° latitude by 1° longitude) in which fishing occurs. In the event that the vessel moves from one fine-scale grid rectangle to another during the course of a month, then a separate length composition should be submitted for each fine-scale grid rectangle.
- 4. Should a Contracting Party fail to transmit the fine-scale length composition data to the Executive Secretary in the appropriate form by the deadline specified in paragraph 2, the Executive Secretary shall issue a reminder to the Contracting Party. If at the end of a further two months those data have still not been provided, the Executive Secretary shall notify all Contracting Parties of the closure of the fishery to vessels of the Contracting Party which has failed to supply the data as required.
 - ¹ Except for waters adjacent to the Kerguelen and Crozet Islands
 - ² Except for waters adjacent to the Prince Edward Islands
